

Vote Vas Vazos for International Students Officer

Hello!

My name is Vasileios Vazos, aspiring to be the voice of international students for 2011.

I want to make students from all over the world to exchange cultures, integrate with home students and enjoy their time at the university.

Together we can make our life at University the best for international exposure to us and our successors.

Let's get our voice put in action regarding all issues that international students face including welfare, academic, social life, accommodation and student representation

Vote for me for our betterment on Wednesday 23<sup>rd</sup> of February

Thank you,

Vas Vazos

Why me for this challenging role?

I have been an international student in UK for a long time; I know exactly how it is to be one. We will work together to bring up all the best of opportunities on being an international student

Objectives:

- My main objective will be to develop a system of communication between the students' association and international student regarding issues
- Studying in a foreign country can be difficult and very challenging, but I will make sure that all the international students get the help they need
- I want to create campaigns for international students. Campaigns promoting the diversity in the university, all the different cultures, promoting equal opportunities and campaigns on human rights.
- I want also to promote events happening across the university, to integrate home and international students.

The list can go on and on. Let's all work together to make a change. Let's leave no stones unturned in our journey to success.

Together WE can make it happen!

Vas Vazos
